EHA-SWG Scientific Meeting on Systemic Risk of Thrombosis or Bleeding

November 22-24, 2019 | Madrid, Spain

ehaweb.org

EHASWG
SCIENTIFIC WORKING GROUPS

**Are you a physician taking care of patients
with thrombosis or hemorrhagic risk?**

i

About the meeting

Join us in Madrid and enjoy a program that covers basic science, pathogenesis, diagnosis and treatment of thrombosis and bleeding disorders, including gender-related hemostatic issues and thrombocytopenias.

Chair

Carlo Balduini

Chair

Anna Falanga

Register now

Register before October 11, 2019 (23:59 CEST) and benefit from the discounted registration fee

Submit an abstract

Submit an abstract before September 20, 2019 (23:59 CEST) for inclusion in the meeting program and discuss it with the international faculty and your peers. Oral and poster presentations will be held throughout the meeting.

Program topics

- Venous thromboembolism
- Biological markers to assess the thrombotic risk
- Scoring for bleeding risk
- Platelet threshold for anticoagulant treatments
- Management of bleeding risk in patients with platelet defects
- Bleeding risk of anticoagulation
- Gender-related hemostatic disorders
- Anticoagulant therapy
